TIFFIN

ZEPHYR

LIVING AREA

Says you've arrived long before you
REACH YOUR DESTINATION.

SUNLIT SAND

Your home living room may just pale in comparison to this living area. As elegant as it functional, the Zephyr features a professionally designed kitchen with a large side-by-side stainless steel refrigerator, pull-out kitchen pantry surface with cutting board, and an optional drawer-type dishwasher for added convenience. There's also a free standing dinette with built-in cabinets. In the spacious open area lies a newly redesigned, sculptured carpet and beautifully upholstered sofas. So when you consider this room also has dual slides, it should come as no surprise that it's one of the Zephyr's biggest draws.

Automatically steers
CLEAR OF ORDINARY.

You'll know before even sitting behind the wheel that driving the Zephyr is going to be special. If the all-new wood grain steering wheel doesn't tip you off, then the Ultra leather Flexsteel captain's chairs with integrated seat belts will. The one-piece windshield gives the driver a completely unobstructed view of the road and the roomy dashboard is full of easy-to-read gauges that make for one of the most user-friendly experiences around. Still not impressed? Then how about a standard in-dash Jensen radio with steering wheel remote, CD player, hand-held CB radio, back-up color monitor system, and computer slide-out desk. Feel free to envy the designated driver.

Comes with everything
BUT ROOM SERVICE.

SUNLIT SAND

At the end of the day, you deserve special treatment. Even when you're on vacation. That's the idea behind the Zephyr's spacious bedroom. Featuring a king-size Select Comfort mattress and meticulously crafted cabinetry, like the cedar-lined wardrobe with mirrored doors, this bedroom is truly one to call your own. A spacious dresser area adds breadth to the already expansive room and a combination washer/dryer also comes standard. Proof that life on the road isn't so tough after all.

It's a day spa
ON WHEELS.

Leave it to the Zephyr to offer a bathroom with an open vanity adjacent to the bedroom, thereby adding space without sacrificing privacy. This full-size bathroom with shower, linen storage, and mirrored linen closet, provides a clandestine, yet elegant, retreat. All fiberglass parts are manufactured locally by Tiffin, ensuring the most stringent quality control.

The Zephyr's sleek and luxurious exterior includes a Quad Slide, keyless entry door system, side view cameras, three air conditioning units, and an entertainment system featuring a 27" television and AM/FM radio with CD player.
