

# LIVE YOUR LIFE IN WIDESCREEN.

It's worlds apart, yet within your reach. Delivering unsurpassed quality and craftsmanship at a reasonable price, the 2008 Phaeton costs much less than comparable diesel pushers, while offering far more. Like three different full body paint schemes, raised rail chassis, exterior swing-out storage doors with gas shocks and a full-tile living and kitchen area—all of which go a long way in explaining why the Phaeton is Tiffin's number one selling model.

The sink now features a Price Pfister® faucet and large stainless steel double bowl. And with an optional Air Coil® Hide-a-Bed the living area is everything you'd expect at home while you're away from it.
